A drawing will need to be submitted with this application including the following information:

1. An approximate in-scale drawing of your property showing the buildings on it and where each is situated include where prospective parking will be situated.
2. All buildings and their distance from the property lines (setbacks).
3. An approximate in-scale drawing of the building in which the home occupation is located showing the area where business is conducted.

Home occupation means any use qualifying as a home occupation that is conducted indoors within the principal building, an attached or detached garage, or other accessory building and carried on by only those persons residing within the dwelling, provided that the use is clearly incidental and secondary to the use of the dwelling for residential purposes and does not involve any alteration of the structure or its character.

1. Only immediate members of the family residing on the premises can be engaged in such occupation.

2. The home occupation shall be conducted entirely within the dwelling, permitted garage (attached or unattached) and/or accessory building. There shall be no outside display or storage in connection with the home occupation.

3. The use of the dwelling for the home occupation shall be clearly incidental and subordinate to its use for residential purposes by its occupants, and shall not use an area exceeding 25% of the main floor area of the dwelling unit. Not more than 50% or 1,000 square feet, whichever is less, of the permitted garage or permitted accessory structure may be used in the conduct of the home occupation. The use of the garage or permitted accessory structure in the home occupation shall not result in the displacement and outside placement of equipment and materials (e.g. lawn mower, snow blower, garden equipment, recreation equipment, etc.) normally stored in said garage or permanent accessory building.

4. Must not require parking spaces in excess of two (2) spaces, located in the driveway or on the street directly adjacent to the property. No more than two (2) customers shall be on the premises in which a home occupation is located at any one time. Visits by customers to a premise in which a home occupation is located shall be limited to the hours of 7 am to 8 pm. No traffic shall be generated by any home occupation in substantially greater volume than would normally be expected in a residential neighborhood. No vehicle or delivery truck shall block or interfere with normal traffic circulation.

5. There shall be no change in the outside appearance of the building or premises, or other visible evidence of the conduct of such home occupation, other than one (1) sign, not exceeding two (2) square feet in area, non-illuminated, mounted flat on the wall of the main building, or placed by the road, but not in the right-of-way.

6. No equipment or process will be used in such home occupation that creates noise, vibration, glare, fumes, odors, or electrical interference detectable to the normal senses off the premises, if the occupation is conducted in a single-family dwelling, or outside the dwelling unit if conducted in other than a single-family home. No equipment or process will be used which creates visual or audible interference in any radio or television receivers off the premises, or causes fluctuation in line voltage off the premises.

7. The home occupation shall not require any type of special construction beyond that customarily associated with a single-family dwelling.

8. The home occupation shall not involve the storage or use of any materials for which there is a high risk of flammability.

9. A home occupation requires a Special Land Use permit approval. A home occupation is not allowed in Central Business District, General Commercial District, Light Industrial District and Utility Industrial District zoned areas.

I, the undersigned have reviewed the restrictions above and agree to abide by them.
